FRIENDSHIP

Directions: Read the paragraph below and find the bolded words in the puzzle by circling them. Words that are bolded beside each other in the paragraph will be separate in the puzzle. Words can be across, vertical, diagonal and even backwards, so look carefully! If you find it too tricky, don't try to complete it all in one day. Look for a few words everyday. Good luck!

Having good **friends** is very important. Friends can make you feel better when you are **sad**, they can **cheer** you up with **funny jokes** or maybe **silly stories**. Friends should be **kind** and **honest** (because no one likes to be lied to!), **nice**, **caring**, **helpful** and have good **sportsmanship**. Friends can be anyone! **Classmates** from **school**, a **pal** from church, a **buddy** from your sports team, **neighbors**, **brothers** and **sisters**, **cousins** or **family** members!

Sometimes being a good friend means you have to **compromise**, or each give in a little to both get some of what you want. When you work **together**, everyone is **happy**! You may even find your friend knows some **fun toys** or **games** you have never tried! You may even find you have a special **best** friend, of the friend you like to be around the most. If you know how to be a good friend, you have friends **forever**!
