# Perseverance means never giving up.

**Directions:** Choa is a very smart Phoenix. She sometimes gets discouraged easily though, and tries to get others to do things for her instead of doing them herself. She knows that giving up and having others do the tricky stuff for her, doesn't help her learn and grow, so this month, she is using her good Perseverance and trying to do things on her own! Use your perseverance to **neatly** connect the dots and color Eternal Grand Master H. U. Lee the best you can within the lines. Parents are asked to help encourage your children to slow down and take their time and may help children figure out which number to go to next. Kids should try their best to draw the lines and color inside them on their own. Perseverance is how hard we try, not how fast we can go.
